

Levy Strategy Committee

Levy Strategy Committee: purpose

The Levy Strategy Committee (LSC) forms part of the representation of industry employers across the three GB Nations and works collaboratively to ensure the effective development of the 2022-25 Levy Proposals.

The group discusses, debates, develops and recommends Levy Proposals that will enable CITB to deliver its plans, such as the CITB Strategic Plan 2022-25 and Business Plan 2021-22.

It assists in assessing and informing industry's view of any proposed changes to Levy legislation in advance of making final submissions to the Board and Department for Education concerning such changes. It supports CITB in testing options for wider industry consultation, and assessing the implications of different Levy rate models against CITB's strategic objectives.

The Levy Strategy Committee considers the impact and potential impact on the CITB Levy of factors within the external environment and makes appropriate recommendations to address or mitigate those factors.

Levy Strategy Committee: members

The Levy Strategy Committee comprises of a group of industry representatives and external specialists, and is chaired by Diana Garnham, a CITB Board Trustee.
